KORO MAX PRIME

 **NECTA**

WHEN TECHNOLOGY MEETS DESIGN.

Attention to detail, exquisite design, perfect lighting and unrivaled performance make Koro Max Prime the focus for the ideal coffee break.

Each is designed with soft, modern lines and is manufactured using a perfect balance of materials. Elegant 'mood lighting' illuminates both the front and sides and there's a large display for managing both images and text. The backlit, touch sensitive selection panel completes the look of this perfect modern coffee machine: you can see at a glance that Koro Max Prime is an elegant machine that will enhance any environment.

Thanks to its characteristics, Koro Max Prime is ideal for locations such as offices, meeting rooms, shops, professional studios, small cafés and restaurants, and can be managed in a variety of ways.

Superior technology to satisfy every need

If it's style and sophistication you're looking for, Koro Max Prime has the answer. The Koro Max Prime comes from the technology and experience of Necta, and as a result is the ideal solution for hot drinks services of a superior quality, with a menu to satisfy every taste.

Espresso

Thanks to the patented coffee brewer, the volumetric doser and the perfect extraction, which is required to make the best Italian espresso, Koro Max Prime offers excellent coffee and a variety of other hot beverages, including frothy cappuccino and creamy hot chocolate.

Simple and stylish

Style and simplicity are synonymous with Koro Max Prime and its ease of use is down to the simple display and conveniently situated touch sensitive selection panel, which helps the user choose their preferred beverage. It also offers a wide drinks menu and can offer up to eight different drinks, and through their versatility they are at home in any situation. Koro Max Prime is also small in size and light, making it easy to position into any location and move around.

A matter of experience.

N&W has been developing and producing automatic beverage dispensers for the Out-of-Home and Catering sectors for many years and supplies over 100 countries. This market leadership has been achieved and maintained by investing heavily in research and development and is the result of many years of technical and manufacturing experience, combined with a passion for innovation and design.

Necta HoReCa products are developed and produced using processes approved to three internationally recognised standards: one for quality (UNI EN ISO 9001:2015), one for the environment (UNI EN ISO 14001:2004), and one for occupational health and safety management system (BS OHSAS 18001:2007). N&W is committed to providing the market with first-class high quality products and the quality certification of all its plants underlines this significant commitment. With regard to the environment, N&W has always paid great attention to the environmental impact of its products and processes and continuously strives to keep this to a minimum. Finally, the OHSAS 18001 certification demonstrates N&W's commitment to creating a safe and secure working environment, where the well-being of staff is a priority.

A further important certification achieved by N&W is supplied by IMQ, Istituto Italiano del Marchio di Qualità (Italian Quality Trademark Institute). This certification assures all N&W products meet the home appliance safety standards as well as the safety standards for commercial dispensers.
